

Certificate A

of competence to manufacture glued load-bearing timber structures
in accordance with DIN 1052-10:2012, Table 2

After inspection of the specialised staff, factory equipment, factory production control
and bond quality of samples of glued load-bearing timber structures, it is hereby
certified that

the company

Wiehag Timber Construction GmbH
Wiehag Straße 10
4950 Altheim / Austria

and its production site in 4950 Altheim / Austria is qualified for the manufacture of

bonded, composite components made from laminated wood,
provided they are not regulated by DIN EN 14080,

and

bonded rib panels
with ribs of glued laminated timber and panels of cross laminated timber
with panels thicknesses greater than or equal to 60 mm.

This certificate is valid under the conditions noted as follow until

31st May 2027

Stuttgart, 28.11.2023
