

# WIEHAG CONNECTORS *WHB*

## BEAM

- Quickest assembly thanks to mounting with self-centring
- Minimum machining of the beam

**BENEFITS:**

- Standardised connection for main and secondary beams
- Wide application range with only 2 basic elements (Vd = 40 – 185 kN)
- Easily expandable with coupling elements and mounting nuts
- Quick availability

**QUICK AND EASY TO INSTALL**

**VERSATILE**

- Integrated lift-out guard
- Tension-proof and pressure-resistant connection
- Lateral force transfer transverse to insertion direction possible EP2604868B1
- Fire protection coating to R60 possible
